Functionalities of Gum Arabic

- Excellent film-forming and coating properties – oxygen or moisture barrier, glazings
- Texturiser & anti-cristallisation agent – enables uniform appearance
- Emulsifier & Stabiliser – disperses lipophilic ingredients or particles
- Adhesive properties – agglutinant and natural binder
- Low caloric and high fibre content – enables suger or fat replacement
- Whipping agent, foam stabiliser and gelling agent at high concentrations
- Compatibility and easy use – no odor or taste, pH-stable and 100% water soluble

Applications

- Sugar free confectionery
- Wine gums • Liquorice sweets • Hard or soft candies
- Dark or light pastilles • Cough drops • Fruit pastes
- Jellies • Toffees or caramels • Bakers' confectionery
- Candied nuts or fruits • Chewing gums
- Chocolate products • Cereal bars etc.
