Functionalities of Gum Arabic

- Proven digestive health benefits
- Degraded only by intestinal microflora - prebiotic function
- Gut regulation – improves water and electrolyte absorption
- Can lower glycemic response
- High tolerance and lower side effects than other fibres
- Low caloric – enables sugar or fat replacement, filling and saturating effects
- Compatibility – no odor or taste, pH-stable and 100% water soluble
- Multifunctional use – like stabilisation or better mouthfeel

Applications

- A natural source of fibre for beverages, juices or smoothies
- Convenience food, dairy or bakery products, cereal bars or even confectionery
- High potential in health care, low caloric or low fat products, functional or dietary food
